RezLive.com excels at ATM-Dubai, launches app

This year Rezlive.com, part of Travel Designer group, witnessed an effective and positive time at ATM-Dubai, which was bigger and better than ever before and provided a strong platform for face to face business transactions between companies from around the globe.

RezLive.com also made a grand launch of its RezLive Mobile App, which will now enable the travel agents to perform critical tasks like managing bookings on the go, cancelling and vouchering of bookings, getting alerts, viewing map for hotel location, emailing the booking information to their clients, activate and deactivate the subagent/sub user in real time basis and 24*7 support.

Furthermore, the app is also offering key features, such as free download, user friendly application, real time info, managing hotels, sightseeing and transfer bookings anytime anywhere and availability on iOS & Android platform to name a few.

Apart from this important launch, Rezlive.com was also honoured with the title of 'Outstanding Achievement in Travel Technology' by Mena Travel Awards.
