RezLive.com marked a remarkable presence at Arabian Travel Market (ATM) 2025, drawing global attention from agents, hoteliers, suppliers, and travel professionals. With an impressive turnout at the stand across all four days, the event was a testament to RezLive.com's growing impact in the global B2B travel space.

ATM 2025 served as the perfect platform for RezLive.com to showcase its vision, meet face-to-face with valued partners, and unveil its next-generation travel services, including:

**Smart Match** – Smart Match is more than a filter – it's your intelligent travel assistant, built with advanced AI algorithms that understand how users search, compare, and book. By processing data across thousands of listings and suppliers, Smart Match delivers curated, clean, and accurate room options, tailored to agents' booking needs. This is not just automation – it's intelligent decision-making at scale.

**Cruise Bookings** – giving agents access to major cruise lines globally;

**Rail Services** – enabling smooth and simple rail ticketing/passes across popular destinations;

**Car Rentals** – seamless booking options with top rental providers worldwide;

**VIP Desk** – a premium concierge solution for luxury and high-touch clients;

**RezHub** – the next-generation B2B platform that enables Destination Management Companies (DMCs) to list, manage, and distribute their hotel inventory globally—without any tech investment.

"We were truly overwhelmed by the positive response at ATM this year," said Mr. Jaal Shah, Founder of RezLive.com and Group Managing Director of Travel Designer Group. "The excitement around our new features like Smart Match and the upcoming service expansions reaffirms our commitment to innovation and delivering value to our global partners."

RezLive.com's team welcomed thousands of visitors, engaged in meaningful discussions, and strengthened global ties throughout the event. The footfall and interest reaffirmed our leadership as a preferred B2B partner in the travel tech ecosystem.
