

Travel Designer Group recognised as the 'Dream Employer Of The Year'

October 5, 2019

Everybody aspires to work in a company in which the employees get an open platform for expressing their views, suggestions and feedback so that a valuable and innovative idea can be implemented.

Travel Designer Group is one such company and is one of the best workplaces to work with. This was proved on Wednesday, 25th September, 2019, when the World HRD Congress honored them with 'Dream Employer of the Year 2019' award in the 14th Best Employer Brand Awards, 2019 held at Radisson Blu Hotel, Ahmedabad, Gujarat.

Winning this award is a tribute to the culture of the company and their employees' strong belief in Travel Designer Group as a great workplace that enhances career growth while helping translate the company's vision of becoming the 'leading global travel wholesaler organisation' into reality. The company takes care of the employees just like it takes care of their customers. Travel Designer Group considers its employees as catalysts which drives the company's growth and success and also makes it a point to strike a balance between the personal goals of the employee and the organisational goals.

"To win in the marketplace, you must first win in the workplace, is what we always keep in mind while designing any policies for the company" says Jaal Shah, GMD, Travel Designer Group. We believe that we should treat the employee just as we would like to be treated while working in an organisation. Employee satisfaction is very important and we make sure that the TDG family is working together happily, he adds.
